

## How to Install an Edible Software Upgrade

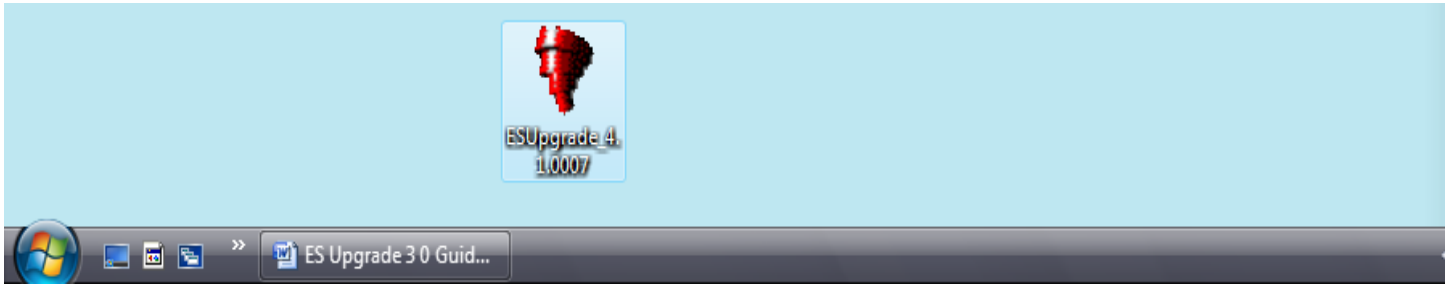

1. Go to <http://www.ediblesoftware.com/downloads30.php> .
2. Click on the **ESUpgrade\_4.1.\*\*.exe** link.
3. The following window will pop up.

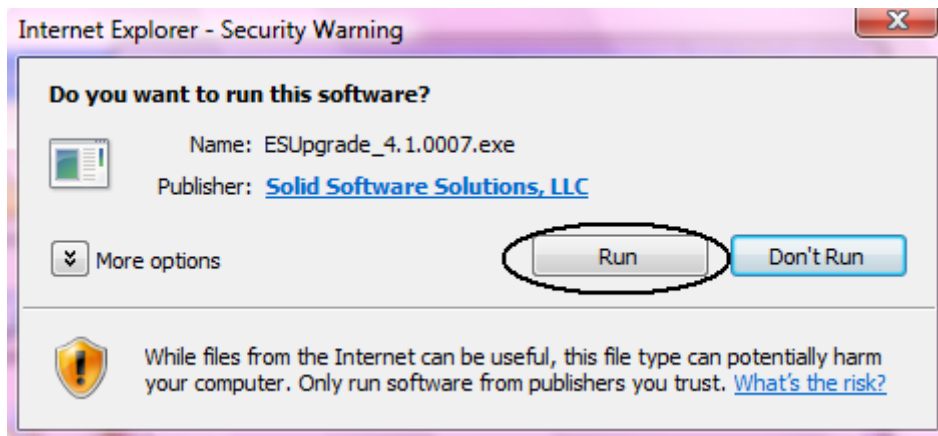

4. Click "Desktop" and 'Save'.

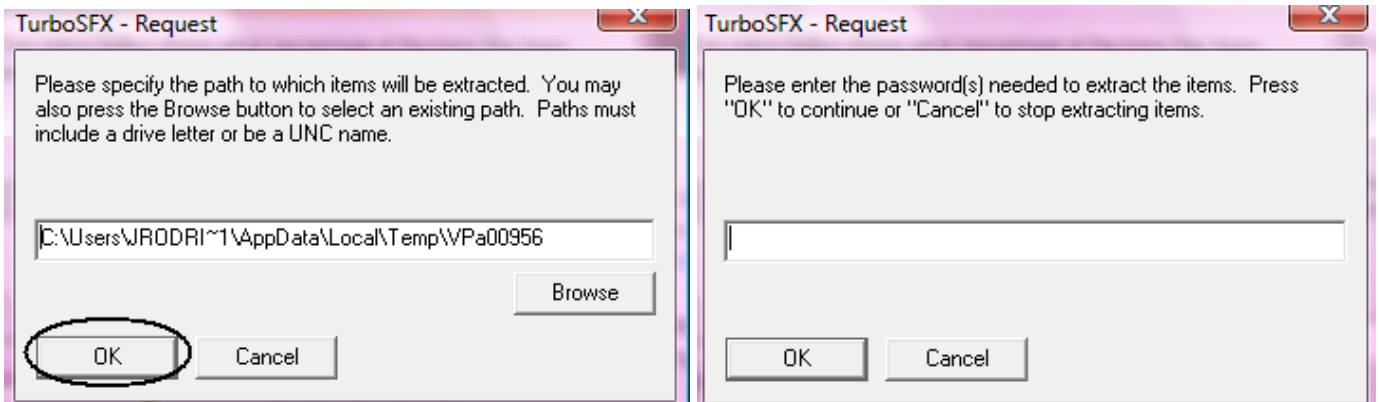

5. When the download is complete, double click the new icon on your desktop.

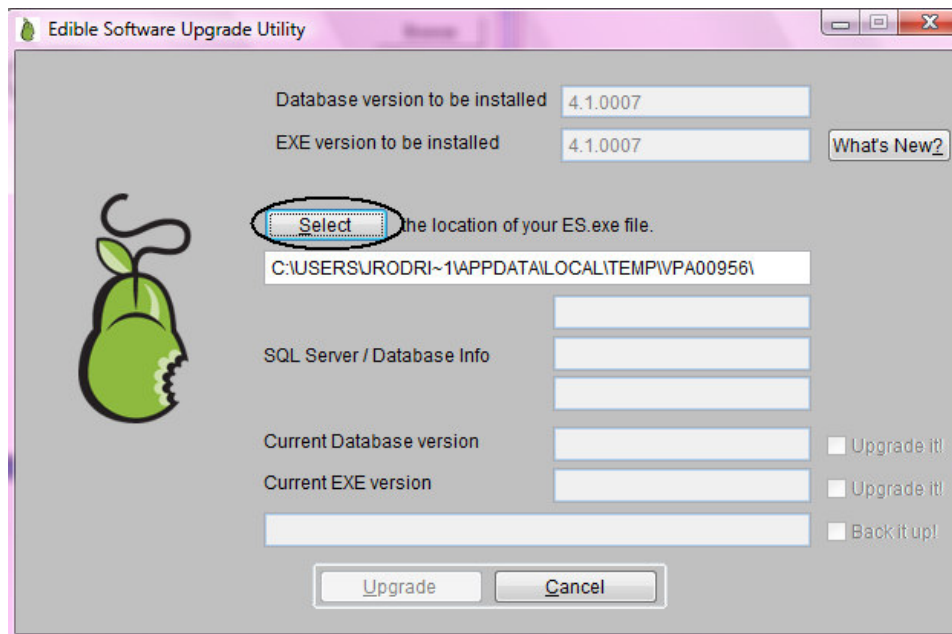

6. Click on "Run".

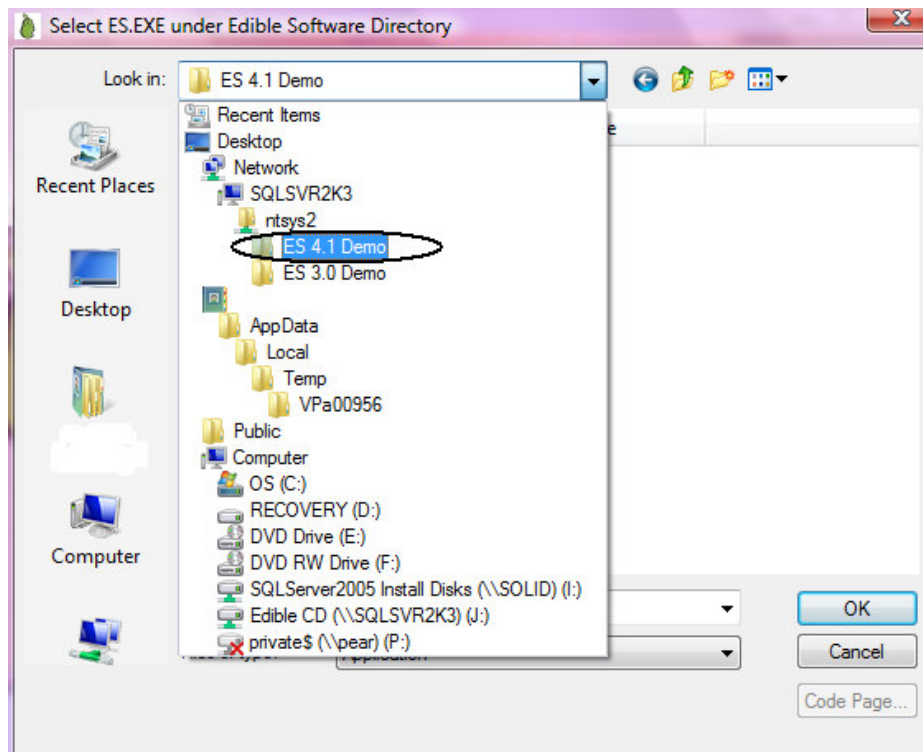

7. When prompted, click "OK". Enter the upgrade password into the next window that appears and Click "OK"

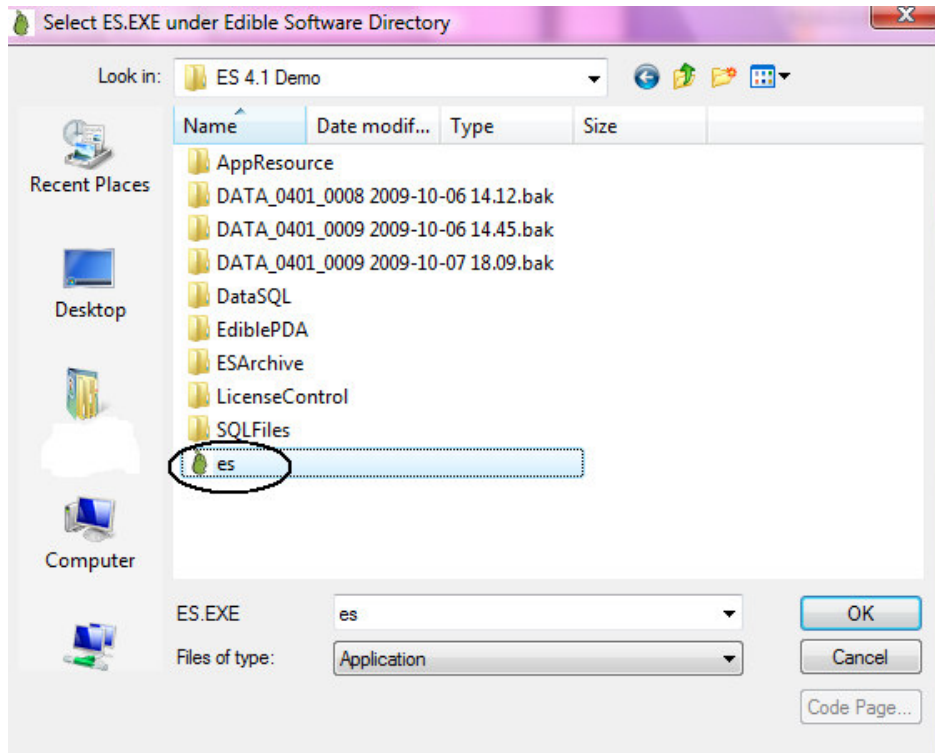

8. When the Edible SQL Upgrade Utility appears, click "Select".

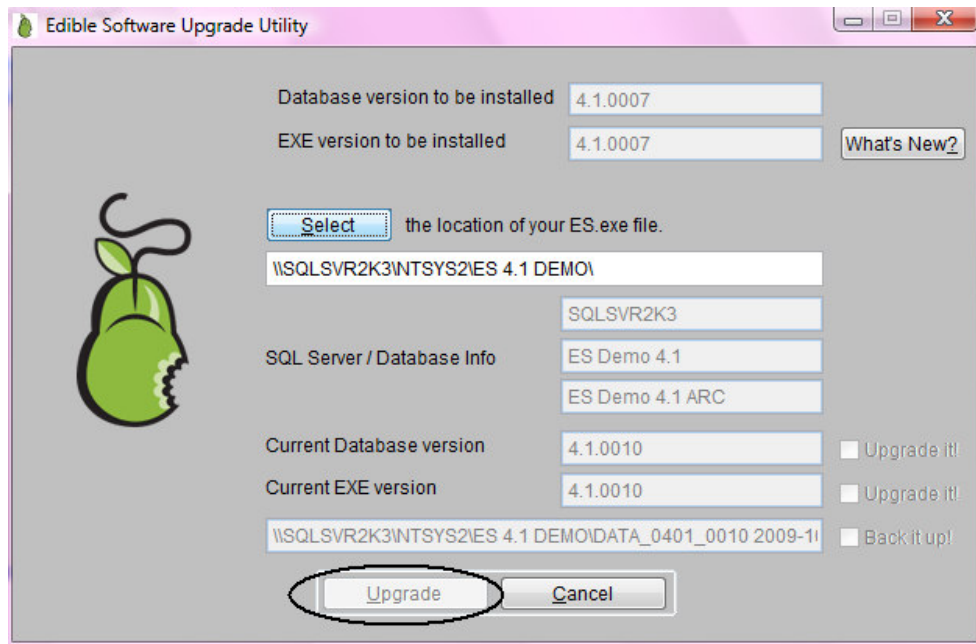

9. Browse to Solid Software shared folder on your server:

10. Select your ES.exe file.

11. Click "Upgrade".

12. Click 'Finish'.
